

## **MK Snap Environmental Sustainability Policy Statement**

MK Snap recognises its sustainability obligations to its staff, learners, visitors, communities and stakeholders – both locally and regionally – and to present and succeeding generations.

MK Snap aims to take a leading role in defining best sustainability practice, and will set its own appropriate and demanding standards where none exist.

MK Snap is committed to implementing the requirements of all relevant sustainability legislation and regulations and, where possible, exceeding any relevant minimum requirements.

MK Snap will manage activities over which it has control and which its service impact; which include the natural, built, economic and social environments that it operates within in accordance with the principles of sustainable development.

MK Snap aims to raise the sustainability awareness of its staff, learners, visitors, communities and stakeholders by promoting the concept of sustainable development and by openly recognising the on-going need to move towards a more sustainable future.

MK Snap will monitor its use of natural resources, both non-renewable and renewable, and maximise the efficiency and effectiveness with which they are used, with a view to minimising environmental impacts.

MK Snap will foster and promote education in sustainability – for staff, learners, visitors, communities and stakeholders.

MK Snap will provide appropriate sustainability training and development for its staff and learners and will encourage them to apply sound sustainability practices at work, at home and within the wider community.

MK Snap is committed to transparency and the implementation of its environmental sustainability policy and objectives and will implement and monitor objectives set out in the overall policy and will periodically review these objectives and promote their continued development.
